

FROM OPPRESSION TO FREEDOM

SEEING WITH YOUR HEART CONSTELLATIONS

With Dan Cohen, PhD & Emily Blefeld, LICSW

Dan Cohen, PhD &
Emily Blefeld, LICSW

Seeing with Your Heart Constellations enhance our body's evolutionary capacity to perceive and integrate the ordinary, ancestral and spiritual dimensions of consciousness that are at the core of what it means to be human. Emily and Dan will demonstrate their unique approach to using constellations to release patterns of oppression and trauma inherited from generations past.

Through personal and group processes, you will contact the roots of negative beliefs, impulses, and fears and transform your shadow of pain — so you can open your heart to greater dimensions of peace, presence, love and purpose.
